3. PRODUCT DESCRIPTION 产品说明

Offer high-end technical engineers for machine lines in Installation, commissioning, maintenance, guidance, equipment and film
本公司为拉膜生产线提供全流程的高级技术工程师服务，涵盖安装、调试、维修、辅导，以及设备与薄膜的技术支持。

Our company provides high-end technical engineer services for all processes in the whole process.
从拉膜设备的采购开始，我们的工程师可以与贵司一起降低成本，并提供合适、可靠的配件；制造过程中的薄膜瑕疵与分切问题，也可以一并解决。

From the purchase of the device that pulls the film line. Our engineers can work with your company to reduce costs and provide optimal, quality accessories.
我们的工程师早年就读于西安电子科技大学电容器制造技术专业，在东南大学学习涂布技术并修习塑料成型专业，因此熟悉原材料与下游产品。在薄膜工艺方面，我们的工程师比一些德国专家更有经验；团队成员都来自行业内部。

Any film defects in the manufacturing process.
国内外客户如需设备升级或委托采购，我们都可以承接。以一条 BOPP 生产线为例，外方询价中调试工程师的费用为 70 万欧元；我们的工程师可带领电气工程师与机械工程师完成调试，费用比国外低一半。国外工程师每天工作 8 小时，我们可以每天 12–16 小时（两班），周期更短，可应对紧急需求。

Then there is the problem with the cut.
我方费用只收取一次，价格为 3000–6000 美元。请一位在薄膜行业有 30 年以上不间断经验的工程师，月费约 2 万元人民币；一年里需要处理的并不多，但需按月支付。有此需求的厂家请尽快联系我们。

Our engineers learned in the early years to maintain the capacitor manufacturing technology at Xi'an University of Electronic Technology. The Southeast University has studied the coating technology and learned the plastic molding profession, so they are familiar with raw materials and downstream products.

So some problems with the filming process, our engineers have more experience than some German experts.

All the classes are from the team, and the team belongs to the insider.

If there are domestic and foreign customers who need to upgrade equipment, or need to entrust procurement, we are suitable.

A BOPP production line, the cost of the commissioning engineer in the foreigner's enquiry is 700,000 euros. This engineer can lead the electrical engineer and mechanical engineer to debug. The price is half cheaper than abroad.

Foreigners only engage in 8 hours a day, we can 12-16 hours a day (two shifts), the cycle is shorter than the foreigner, in order to meet emergency needs.

At present, some old engineers earn USD, and some domestic customers have secondary demand. Commercial terms are quoted against the agreed scope of work.
